DETAILED ACTION

Election/Restrictions

Applicant's election of Group 1 in Paper No. 6 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). The requirement is deemed proper and is therefore made FINAL. Claims 6-46 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim.

This application contains claims 6-46 drawn to an invention nonelected with traverse in Paper No. 6. A complete reply to the final rejection must include cancelation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 1/27/03 was considered by the examiner. Applicant indicated that all references were submitted and considered in parent applications 08/891456 and 08/933566; due to the substantial amount of references cited, the Examiner is relying upon applicant that all were actually submitted and considered in the prior applications.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3738

Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, what is the "interior surface", is it the interior of the inner passageway? What are the "inner walls", is it the same as the interior surface? What is the "inner region"? The claim is interpreted giving the same elements multiple names.

As far as the scope of the reference can be determined, the following is made of record.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2 and 4-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Nakamoto (JP 5071492).

Referring to figure 3, Nakamoto teaches a pump having an outer pump housing having interior surfaces having concentric inner and outer passageways; a rotor 52 positioned within the pump housing and surrounded by a inner walls of an interior compartment. The rotor is in communication with inner and outer passageways.

Art Unit: 3738

Allowable Subject Matter

Claim 3 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
